12+ years of experience in bespoke software applications development

SUMMARY

Java Programming | System Design | Solutioning | Unit Testing.

An experienced IT system analyst and application developer with experience working within global organizations, developing bespoke software applications. With specialist development skills in Java, Ruby on rails, Active X, DBz, & Unix, I maintain a sharp eye for detail, quality and have experience working throughout the software development lifecycle. I am very self motivated, enthusiastic, and deadline focused individual with a great passion for business continuity with capabilities of working individually or part of a team and working extremely well under pressure managing time and prioritizing tasks.

OBJECTIVE

Innovate next-generation solutions, systems and applications fueling major improvements to the bottom line.

POSITIONS

Lead Programmer at Social Networks Inc. 2/2006 - current

- Reengineered multiple systems that fueled improvements to productivity, efficiency, uptime and accuracy for global business operations. Developed code, system design and test/QA plans for all solutions and often coordinated the national or international rollout.
- Led, architected and participated in the design, testing and deployment of client/server, multi-tier applications, ActiveX and related components.

Programmer I at The Coolest Search Engine. 7/2002 - 1/2006

- Led solutions engineering that involved process automation, macro conversion and functionality enhancement. Replaced time-consuming, error-prone manual processes with elegant, automated solutions.
- Developed and implemented cross-platform, Java-based POS system. Completed project under budget and three weeks ahead of deadline.
- Coded new solutions that increased availability and scalability by 45% and 75%, respectively.

EDUCATION

M.S. in Software Engineering, Massachusetts Institute of Technology, USA. 7/2000 - 6/2002

The degree program was designed to give students a wide variety of exposure to the high techworkplace. Topics included programming, database administration and design, OOP and system design and analysis. There was also a heavy emphasis on business skills such as accounting and communications.

B.S. in Computer Science, Massachusetts Institute of Technology, USA. 7/1996 - 6/2000
